**MULTICULTURAL  
ACADEMY**

**Dear Multicultural students, families, and community.**

Today, April 4, 2020, the Governor has issued an Executive Order directing an extended school closure for schools in Michigan through the end of the school year. Since our initial announcement of closure, we have been working and preparing for the possibility of a more extended closure of schools.

**What it means for us in various domains:**

Learning and Student Engagement

We will intensify remote instructions and will have regular hours of assignment, progress monitoring and enhanced parental communications. Our committed teachers will share additional learning resources so students are engaged beyond the assignments provided by the teachers.

We hope this will give our students the time and opportunity to pursue learning and passions that matter to them.

Technology Support

We will provide chrome books to students who need them so that remote learning is possible.

Safety and Health

We all understand that we are currently experiencing an unprecedented public health crisis in Michigan. At this time, even before our critical mission of teaching and learning, we are attending to issues of health and safety first. I urge everyone to follow Governor Whitmer's executive order to Stay Home and Stay Safe. Please maintain social distance if going out is a must. Let us all together prevent the spread of the virus.

## **MULTICULTURAL ACADEMY**

### Food Drive

We understand the need to have a healthy body to have a mind full of concentration. We will continue to distribute breakfast and lunch food packets to all students and community children, below the age of 18.

### Additional Notes

While so much has changed in the realities of daily life for every student, staff member, parent and family as we live through this current COVID-19 crisis, one constant remains for all of us: we remain deeply committed to each and every child and family to ensure the continued health, learning, and growth. Our teachers shall remain whole group and one-on-one virtual assistance. Please reach out.

Also if you have additional needs for special services, food and learning supply needs, please reach out too. We will do our best to serve you to the fullest.

Please stay safe, stay healthy and take care.

Sincerely,

Mrs. Mohana Mukherjee, Principal.
