

## Continuity of Learning Summer School Plan

Multicultural Academy's Summer School Program is offered to all students of K-8 and via remote platform to minimize Covid 19 School Phase learning gaps and to enhance student readiness for next grade.

### Summer School Teachers

Mrs. Bragg is teaching the K-2 students during summer school this year. She has been teaching at Multicultural Academy for one year and has shown incredible resilience during our period of distance learning.

Ms. Lampkins will be teaching 3-5 and 6-8 ELA during summer school this year. She has been teaching at Multicultural Academy for four years and has been teaching in total for seven years.

Mrs. Blake will be teaching Math 3-5 and 6-8 during summer school this year. She has been teaching at Multicultural Academy for four years.

- larger multiplications and divisions
- integers (add, multiply, and divide)
- equations with distributive property
- fractions and Mixed Numbers
- rounding and estimates
- Order of operations
- reciprocal
- inverse operations

## Summer School Instruction Information

MULTICULTURAL  
ACADEMY

Dear Parents/Guardians,

Thank you for enrolling your child in our virtual summer school program. We are looking forward to the learning opportunities that this program provides for our students and will do our very best to ensure your child's preparation for the next school year. Our summer school program begins on Monday, July 6 and will end on Thursday, July 30. The program runs for four hours a day and will require two Zoom meetings a week. Individual teachers will share the links and times for these Zoom meetings.

The Kindergarten through Second Grade students will be logging on to Seesaw Monday through Thursday to complete a variety of math and ELA assignments. They will also be using the websites [www.lexiacore5.com](http://www.lexiacore5.com) and [www.play.prodigy.com](http://www.play.prodigy.com). Mrs. Bragg will be communicating all usernames and passwords with you as soon as possible. Please log into Seesaw no later than Sunday night to figure out when your child/children will be meeting for Zoom meetings. Mrs. Bragg will also be available by either phone call, text message, or email address.

The Third through Eighth Grade students will be using Google Classroom to complete ELA and Math assignments. In addition to Google Classroom, ELA students will be using <https://www.getepic.com/> to complete the reading response requirements of this class. A link to all websites and platforms will be provided through email to each student.

We look forward to working with your student and making this year's summer school program a success!

Sincerely,

Mrs. Bragg, Ms. Lampkins, and Mrs. Blake
